

NDLOVU | UNIT 5

Ndlovu, which means elephant in Zulu, was the first log cabin built at Elephant Walk Retreat. Over the years this quaint, gorgeous log cabin has catered to small families, and couples from all over the world.

The log cabin, which is also raised on stilts, has one bedroom and sleeps four guests. It is air-conditioned and offers a king-sized bed, three quarter bed and a foldout sleeper couch, which can be made up by the staff upon request.

The unit offers an en suite bathroom with a glass shower and a separate toilet.

The room leads on to a private deck, which has a dining table, and a kitchenette, which is used as the living room area. The kitchenette does not offer an oven but has a stove and microwave.

A barbeque (braai) area is situated next to the log cabin.

Sip on a glass of wine, and watch the sun go down, as the bush comes alive in the evenings right in front of your log cabin.
